Download HoRNet SongKey
MK4. This feature is off by
default since it is not easy to
deduce the chord/scale from the

single audio note. SongKey contains some clever logic to deduce the chord based on the other notes in the chord. Apr 24, 2018 SongKey MKIII | kammz

The SongKey MKIII video demonstrates how to use the composer version of the SongKey software to create songs in real time. HoRNet

SongKey MK4: Introduction.

HoRNet SongKey MK4 is the fourth release of the current software iteration of our

software for automated song creation using the TonalProtectionTTS API. SongKey MK4 uses the new, heavier-duty version of the TonalProtectionTTS API called the TonalProtectionTTS_3.4 API which was implemented in the AudioFuse SDK. HoRNet
