If you've ever needed a computer virus scanner to protect you from spyware and other malicious software, you might be happy to hear that Microsoft offers a free tool called Windows Defender Security Center. While the free antivirus available on Windows 10 is good at fighting off new threats, it might not be as dependable when it comes to mature viruses that have been out in the wild for some time. This is where Windows Defender Security Center can help, however: it doesn't matter how old a virus is, Windows Defender Security Center will detect it.
