## Tune Sweeper Activation Key

Tune Sweeper 4.41 Crack is used to detect and remove duplicate tracks from your iTunes library. It also downloads the lost track. Tune Sweeper is a new utility for iTunes. It can be used to remove duplicate tracks (in case the user cannot find the track you want), but it will not delete tracks (if the user does not want to delete any tracks). The program uses a data compression algorithm to process audio files (compressing data on the user's computer). As a result, you can delete several tracks (or parts of tracks, or even whole files) using only one program.
