Apr 5, 2014 Hi has anyone come across phoenixtool 2.11? I'm using this to transfer game apps from phone to tablet. I am getting an error on one of my phones when I try to update the phoenixtool. I get a maintenance error when I try to update and it says I have insufficient space to perform an update. I've tried to clear all space, clear cache, stop the app, start app, force stop app (garbage collected), but to no avail. Any help would be greatly appreciated.
