"It's incredible to see how precise FIFA 22 will be," says Sucker Punch creative director Shaun Carmody. "You'll see for yourself what we've been up to in the lead up to this release. Our FIFA collaboration with the movie 'FIFA 19 The Movie' has just been released on the Xbox One and PS4. We are also very excited to share that 'FIFA 22 The Movie,' will be available before the end of the year. This is the first time that we are showcasing EA Sports' work in short films, prior to the release of the game. We have worked in conjunction with DreamWorks to bring 'FIFA 22 The Movie' to life." FIFA 22 will be available on Xbox One and PS4 on Sept. 15 in the U.S. and Sept. 17 in Europe. The Underground (NXNE) 2017 lineup - with more than 30 bands from UK, Canada, and the US - will be available for purchase on Saturday, October 14. Stay tuned for music previews, news, and more. You're going to need a drink to take in the weekend-long lineups for the two NXNE festivals held in Toronto in the spring. In the three days from Friday to Sunday, over 25 bands perform at the festival and, while the lineups for the two festivals look similar, a few things make each of

---

them unique. NXNE Records For starters, the two NXNE festivals – NXNE Toronto and NXNE Ottawa – are held at opposite ends of Canada. Toronto's is in the heart of the city while Ottawa's is in the upscale neighbourhood of Rockcliffe Park. There are definitely neighbourhoods to explore with the downtown festival being the place to be on Thursday, while, as an alternative, hang out with people who know their way around Rockcliffe. Slightly less than 20 bands are taking part in the Toronto edition of NXNE. The lineup was announced Thursday night with artists like the Growl, Rapha, and the Waco Brothers. Some of the bigger names such as Charles Bradley, the Milk Carton Kids, and the Barenaked Ladies are still to be announced. The title of NXNE Toronto's headliner has been a closely-guarded secret. NXNE Ottawa Friday's festival at Ottawa's Ottawa Bluesfest brings the number of acts to around

## **What's new:**

- **EA SPORTS Ultimate Team - Field the ultimate team with an ever-expanding roster of superstars from clubs all around the world. Manage the most authentic deck in the series by collecting packs to build more than 5,000 player cards. Choose your preferred combination of skills, kits and boots by creating your very own FUT Leagues. Unlock trophies with exclusive FUT Ultra boost items.**
- **AI improvements - Equilibrium and the Tactical AI improvements bring even more intelligent and challenging AI behaviours. In possession, the new Offside AI system allows players to create better offside traps. Offsides are now differentiated based on the offensive pressure and the opposition's defensive commitment, but they will always be more difficult if teams are struggling to win or are sitting deep. Defending is stronger thanks to the new On Ball Protection system. If the player in possession performs a more dangerous action, such as a pass or shot, the defence in close proximity to him will automatically step to close the gap and chase him. This allows the opposition to press with more intensity, because the defending team is harder to beat. Additionally, it creates interesting conflicts when a striker suddenly becomes the deep lying playmaker. Dynamic balancing - We continue our three-year run of annual updates by refining the game's balance every year. FUT moves to an annual update schedule in FIFA 22. Dynamic defender vs attacker balancing - Every game reveals new layers of tactics that attackers and defenders use to create openings for scoring opportunities. Dynamic data helps us to distribute the right difficulty levels to those tactics.**
- **All-new Tactical Shot Control mode. - The Tactical Shot Control mode, previously available on FIFA 19, is now universally available, allowing players to practice shot targeting and customization at all skill levels.**
- **"Intelligence" - Introduces the all-new Intelligence System. Collect a wide array of new items with your Ability Points. As you rank up, you will discover new tokens, badges and**
