Q: How to get generic LinkedList from enums? I have an enum like so : public enum AClass { Data1 = new T(), Data2 = new T(), Data3 = new T(), Data4 = new T(), Data5 = new T(), } I now want to instantiate a LinkedList from the AClass object. I tried: ICollection> list = AClass.Data2.OfType>().ToList(); But I get the following error: Type or namespace name 'AClass' could not be found (are you missing a using directive or an assembly reference?) How can I fix this? A: This is not a LinkedList, but I think you meant List: ICollection> list = AClass.Data2.OfType>().ToList(); Note this won't work if T is a non-abstract type, because you can't declare a parameterized type of the type parameter type without specifying a type for the type parameter. Risk factors for postoperative atrial fibrillation following coronary artery bypass graft surgery in Japan. We conducted a case-control study to evaluate the risk factors for postoperative atrial fibrillation (POAF) following coronary artery bypass grafting (CABG) in Japan. The study comprised a series of 1234 consecutive CABG patients over the 18 years from January 1991 to December 2008 in the five major surgical centers in Japan. Twelve hundred six patients with POAF after CABG were matched 1:3 with control patients without POAF. The most significant risk factor for POAF was preoperative presence of atrial fibrillation. High body weight was also a significant risk factor. Other risk factors, including older age, male sex, left main coronary artery stenosis, preoperative myocardial infarction, history of cerebral infarction, and anemia, were also significant. The preoperative proarrhythmic risk scores (PREOGRESS) and the European System for Cardiac Operative Risk Evaluation (EuroSCORE) were also significantly associated with POAF, but their results were considered to be an

Rozhaniye, Lorestan Rozhaniye (, also Romanized as Rūẕahānīye and Roẕahnīye; also known as Rūẕhehānī) is a village in Maziri Rural District, in the Central District of Jondi Shapur County, Lorestan Province, Iran. At the 2006 census, its population was 171, in 42 families. References Category:Towns and villages in Jondi Shapur CountyQ: When does a racine change into a p-adic root? A standard example of p-adic root is $$\sqrt[3]{2}$$ which is a root of x^3-2. Why is this not the p-adic root $$\sqrt[3]{2} = \sqrt[3]{2^3} = \sqrt[3]{\left(2^3\right)^3} = \left(2^3\right)^{1/3}=\ldots$$ (I've also confused myself with the 2 in the denominator in the first line) A: It is indeed confusing. In the second form, the number 2^3 in the second line is not even a natural number, since the base 2 here is not a natural number, either. So you are right, it's not a p-adic root. In fact, 2^3 is not even a natural number, since the base 2 is a non-integer power. Laurence Trimble Laurence Trimble (8 March 1896 – 24 April 1978) was an English footballer who played as a left back. Career Trimble was born in Bilbrook, Dudley, in 1896.
